

PanBlast™ BP Series Manual Blast Pots-Model BP300-3

*"Surface Preparation
Is Our Business"*

Pan Abrasives has over 50 years of experience in the abrasive blasting industry, and this experience has been used to develop the PanBlast™ BP Series Blast Pots, which are ideally suited to both open blasting and blast room applications.

PanBlast™ BP Series Manual Blast Pot Design Features:

- * Pot shells designed and manufactured in accordance with ASME and AS/NZS Standards for international recognition.
- * Simple manual ball valve operation
- * Pressure gauge and relief valve fitted as standard equipment
- * Basic, simple design allows for quick and easy parts replacement as and when required.
- * Three (3) different models are available, BP50-3, BP300-3 and BP600-3, so there is a PanBlast™ Manual Blast Pot to suit every application.

PanBlast™ BP Series Blast Pot Common Applications:

- * On site blasting at industrial and commercial sites
- * Blast and painting contractor yard work
- * Blast room applications with and without abrasive recovery systems
- * In situ blasting in shipyards and slipways
- * Virtually any application involving pressure abrasive blasting

Note: PanBlast™ Manual Blast Pots are not available in all regions. Contact your local governing authority to determine if manually operated blasting pots are suitable for use in your region.
